ECC Online Support

Show that your school is making good use of the Pupil Premium	Make the most of your ECC Interventions

All schools that use Every Child Counts interventions can register with Edge Hill University for online support in 2018-19. This will give you access to the ECC online data system, the relevant resource area of the ECC website and our helpdesk.

The ECC Online Data System

Your school can use the system to record simple information about children who take part in ECC interventions and their progress during the intervention and at the end of the year. A data collection sheet tells you exactly what information you can gather and the online system makes it quick and easy to enter the data. If some information is missing, no problem – you can add it later, or leave it out altogether.

Whenever you want to, you can download an instant **Pupil Progress** report for any child. It shows:

- the support they have received
- assessment outcomes and progress made
- summary comments made by the teacher.

Every term, you can download a more detailed **School Report** that includes:

- an explanation of the intervention
- analyses of how this year's cohort of pupils has progressed
- analyses of how specific groups have progressed, such as pupils eligible for the Pupil Premium or boys and girls
- a comparison of your school's outcomes with national benchmarks
- individual analyses of each child's progress.

You can see sample reports on the ECC website. They are invaluable for:

- identifying and following up each child's progress, and discussing it with their parents and colleagues
- demonstrating to governors and Ofsted that your school is making good use of the Pupil Premium
- enabling the senior leadership team to evaluate and enhance the effectiveness of the intervention.

Access to Online Resources and Support

Your school can access the password-protected resource area of the Every Child Counts website, with up-to-date information, useful links and downloadable resources for any of the mathematics (1CN, SAA, T4N) or literacy (PXC, BRSP, 1CW) interventions for which the school has previously received training.

You can also contact Edge Hill University by e-mail and phone for helpdesk support if you need further advice.

How to Register for Online Support

> You can register and pay online at **http://ehu.ac.uk/onlinedata**
> for mathematics **or** literacy interventions (fee £60+VAT)
> for both maths **and** literacy interventions (fee £90+VAT)
>
> <u>Or</u> send the order form below
> for maths **or** literacy (fee £72+VAT)
> for both maths and literacy (fee £108+VAT)

If your school has previously received training by an ECC Provider in any Mathematics (1CN SAA T4N) or Literacy (PXC 1CW BRSP) intervention and does not have a current member of staff registered for this programme, you can use register with Edge Hill University to receive online support for the programme.

Your online support registration will cover all programmes in the subject area you register for. **Access will last until September 2019.**
