

AN OPPORTUNITY FOR LANCASHIRE BUSINESSES

WHAT, WHERE, WHEN?

On October 30th 2024 the **Lancashire Climate Action Network** will be holding the first ever conference in Lancashire bringing together 16-19 year olds to learn more about how they can help lead the county's transition to a more sustainable, carbon neutral future.

The conference, which will be held at **The Blackpool Sixth Form College**, provides a great opportunity for forward-thinking businesses and other organisations to help support this new generation of green leaders.

THE BENEFITS

As a sponsor, your business/organisation will:

- Have your logo and name on the conference website, and key digital and printed materials, reaching a audience of thousands across the region
- Have your support celebrated on social media
- Receive a certificate of thanks and recognition
- Make a real contribution to the future of our region through helping develop young leaders

BECOME A SPONSOR

In order to help with costs associated with running this unique and important event, we are looking for **sponsorship donations of any size**. This will help us ensure that the young people attending the event have the best possible experience and that the event has the profile it deserves.
