Your place in civic life

What role do students play in their neighbourhoods?

Join us for this Open Space event hosted by Collective Encounters for students, local people and community organisations. We invite you to come and discuss how students can contribute to civic life.

By 'civic' we are thinking of what happens in your neighbourhood and the issues in that local community. Civic duties and activity might include voting, volunteering, campaigning or supporting local businesses and community events.

You will hear a series of 'provocations' from our guest speakers and then be invited to help set the agenda for our discussions.
If you want you can just come and listen.

The event takes place:
Monday 28 April | 11am-1pm
Creative Edge 1.02
